

Living World

An excursion program to support Stage 3 Science

OBSERVATORY HILL
ENVIRONMENTAL EDUCATION CENTRE

Living World is full day excursion that supports the 'Living World' content from the Science and Technology syllabus. Students will visit The Coal Loader Sustainability Centre at Waverton, and Balls Head Reserve to explore the natural vegetation and native animals.

Students will test the conditions needed for survival of specific animals under threat from human impacts using observations and measuring equipment, and describe the adaptations of the animal species and the local vegetation. They will learn about traditional Aboriginal foods, and sustainable management of environments for food production through the Coal Loader Sustainability Centre community gardens.

Cost: From \$10 per student

Enquiries: Phone: Observatory Hill EEC on 9247 7321

Email: observhill-e.school@det.nsw.edu.au

For more information about this program and other environmental education programs, visit the Observatory Hill EEC website at:
