

Fascinating Flying Foxes

An incursion program to support Stage 2 Geography

Fascinating Flying Foxes is an approx. 1.5 hr Stage 2 incursion focussing on the Geography Topic 'The Earth's Environment'. The program also compliments the DoE's cross curricular program 'Tears in the Jungle', by focussing on a local threatened species.

During this program, students will investigate the importance of natural vegetation to animals and people, including sustainable practices that protect environments, with a particular focus on Flying Foxes. They will participate in a number of hands-on activities, designed to increase understanding and awareness about this threatened species.

Cost: \$5 per student

Enquiries: Phone: Observatory Hill EEC on 9247 7321

Email: observhill-e.school@det.nsw.edu.au
