

# Investigating Energy

An incursion program to support Stage 3 Science

**OBSERVATORY HILL**  
ENVIRONMENTAL EDUCATION CENTRE

*Investigating Energy is a half day (2 hr) Science and Technology incursion designed to enrich and strengthen Science and Technology learning outcomes, in the topic 'Physical World'.*

Students will use a variety of scientific equipment to investigate various aspects of energy, particularly the transfer and transformation of electrical energy. They will learn about energy sources and undertake two experiments to observe the transformation and transfer of energy.

**Cost:** \$10 per student

**Enquiries:** Phone: Observatory Hill EEC on 9247 7321

**Email:** [observhill-e.school@det.nsw.edu.au](mailto:observhill-e.school@det.nsw.edu.au)

For more information about this program and other environmental education programs, visit the Observatory Hill EEC website at:

<https://observatoryhilleec.schools.nsw.gov.au/primary-programs>

Our Centre is staffed by **experienced and qualified DoE Teachers**. It provides **cost effective, curriculum linked** programs that strengthen classroom learning, as well as **Risk Assessment** advice for all programs.
