

Living World Pre and Post Incursion Activities

Pre visit activities

Activities prior to the delivery of the program will help prepare students for the day as well as link the program to the class program. These could include:

- Visit <https://www.mylearning.org/stories/minibeasts/9> (on the whiteboard) and learn more about invertebrates.
- Work through the classification decision tree ***What creature is that*** with your class to discover the two creatures that you will be studying during the incursion.

Follow up activities

- Participate in a citizen science School of Ants : <http://www.schoolofants.net.au/>
- View the Field of Mars Environmental Education Centre Multi Touch e-book called [Interactive Invertebrates](#) to learn more about classifying invertebrates.
- Compile a collage of student's drawings and models, hold an art exhibition of their work.

Note: Observatory Hill EEC also has other incursion programs suitable for your stage. <https://observatoryhilleec.schools.nsw.gov.au/primary-programs/incursion-programs.html>
